

# PRODUCT DATA SHEET

Sanitary cleaning - Maintenance cleaners

## Wetrok Granusan

Innovative, acidic sanitary maintenance cleaner for removing limescale where water hardness is moderate or low - granulate cleaner

# Wetrok Granusan

**pH value (Concentrate):** -

**Important ingredients:**

Surfactants, Acid, Fragrances, Corrosion inhibitor, Colourant

**Recommended dosage:**

1 stick for 4 l of water

1 stick for one foam bottle

**METHODS**  
finder

**APPLICATION**

- Acidic sanitary maintenance cleaner for removing limescale and all types of soiling
- Suitable for water of up to moderate hardness
- For maintenance cleaning of washable and acid-resistant surfaces (sanitary porcelain, fittings, ceramic tiles, bathrooms, showers, washrooms and WCs, etc.)

**PROPERTIES**

- Acidic (in application solution)
- Pre-portioned cleaning granulate
- High-lather
- Scented
- Dyed red
- Biodegradable in accordance with OECD 302b
- Not corrosive towards chrome-plated sanitary fittings

**GOOD TO KNOW**

- Use prepared mixture within 7 days

**PLEASE NOTE**

- To dissolve, close the foam bottle and shake vigorously for 15-30 seconds
- Not suitable for acid-sensitive surfaces (limestone, marble, clinker, aluminium, etc.)
- The exterior of sanitary fittings must not be warm when cleaning

**RECOMMENDED APPLICATION METHOD**

**Damp wiping (by hand, using a bucket)**

Soak the cloth with cleaning solution and then wring it out well. Wipe the surface with a damp cloth.

**Damp wiping (manual foaming)**

Apply the cleaning foam in an "X" form on a folded cloth, then damp wipe the surface (using the fold technique).

**STORAGE**

Store the sticks in the original container at 15 to 25°C in a dry place.

*Durability (unopened): 48 Month*

Wetrok AG shall have no liability whatsoever for damage caused by incorrect use. Observe special cleaning and care instructions from the floor covering manufacturer.
