1 General Description

Enviro Disinfectant is a powerful disinfectant is made from natural ingredients that will keep kitchens, change rooms and bathrooms germ, virus and bacteria free. It is safe to use with septic tanks and biodegrades easily. It can be used on all hard surfaces and is an extremely effective and powerful disinfectant. This Product is certified as a disinfectant by Intertek and holds a Greentag certification as well.

This product can also be used for fogging. It is a very effective fogging chemical and is non-corrosive so it is safe on all hard surfaces. Dilute before use.

**2 Advantages and Features**

- Combines sterilizing and cleaning power in a single product.
- Infused with a refreshing, pleasant fragrance.
- Highly effective in eliminating bacteria.
- Offers exceptional long-term storage stability.
- Efficiently eradicates fungi and mould.
- Safer for the environment and biodegradable.

3 Application

To clean hard surfaces such as walls, floors, tables and toilets, a solution of 200ml to 1L Enviro Disinfectant in 10L water should be applied. For wide area cleaning on normal “day to day” grime, a solution of 250ml Enviro Disinfectant in 10L water is recommended.

Enviro Disinfectant achieves a 99.999% reduction of bacterial organisms at concentrations of 1%, 2%, and 4% within just 5 minutes of contact time.
