**1 General Description**

- An Active Microbial Enzyme Cleaner, with a solution engineered to deliver superior cleaning power with microbial technology. With a balanced pH, it promotes skin health while delivering thorough cleansing.
- Formulated with the power of enzymes to break down organic stains and eliminate odours at their source.
- Unlike traditional cleaners, it actively targets and digests organic matter, leaving surfaces pristine and fresh.
- This product holds a Greentag certification, assuring clients that it is the safer option for the environment.

**2 Advantages and Features**

- Swiftly breaks down a diverse range of organic waste, ensuring thorough cleaning with unparalleled efficiency.
- Self-regulating and completely biodegradable, setting a new standard for environmentally responsible cleaning solutions.
- Rapidly dissolves fats, oils, and grease, eliminating stubborn residues with ease.
- Targets amines, compounds that attract insects like flies and cockroaches, effectively deterring infestations.

- Proactively prevents drain blockages, ensuring uninterrupted flow and optimal plumbing performance Biodegradable.
- Effectively diminishes odours at their source, leaving behind a fresh and pleasant environment.

3 Application

1 DOSE= 50ML

Drain line and down pipes

- Initial treatment: 3 doses during the first week. Use at least one dose once per week in standard pipes. Usage rate should be increased for large drain lines and extended pipe lengths. For multi- stories buildings, treat each floor every day from ground upwards during the first week. Thereafter, add ENVIRO ENZYME D-ODOUR weekly from the upper floor.

Small grease Traps

- One dose weekly per 50 meals per day. Initial treatment (seeding) 3 times greater during the first week. Add ENVIRO ENZYME D-ODOUR directly to the kitchen sink or pipe next to the grease trap at night, then flush down with lukewarm water.

Septic Tanks

- Initial treatment – 5 doses per 1 cubic meter of tank, thereafter 1 dose every two weeks. Pour directly into the toilet bowl and flush.

Carpets

- Micro-organisms destroy the root cause of odours. ENVIRO ENZYME D-ODOUR will control odours from pets and organic spills. Dilute 1L solution with 10L of water and spray onto the carpets and completely wet area. Scrub the surface and allow the micro-organisms to work in between the fibres overnight. Allow to dry and then vacuum clean.

Cats & Pet Litters

- Dilute 1L solution with 10L water and spray onto the pet litter or contaminated area or as required. ENVIRO ENZYME D-ODOUR will control odours.

Urinals

- Spray 1L solution of ENVIRO ENZYME D-ODOUR in 10L water on each urinal daily or as required according to usage.

General Surfaces

- 1L solution diluted with 10L warm water. Spray onto the surface to be treated weekly.

Deep cleaning of floors

- Use diluted with warm water. Spray onto the surface to be treated when planning a deep clean.

Deep Freezers & Refrigerators

- Bad odour contaminated appliances can be treated with a 1L solution in 10L water. Spray ENVIRO ENZYME D-ODOUR onto the empty interior and seals and leave for 3 or 4 hours, or overnight. Then wash with a neutral detergent.

4 Product Technical information

- Active ingredients:
 - Primarily consist of enzymes.
 - Enzymes are specialized proteins that catalyse chemical reactions, making them highly effective for breaking down organic matter, stains, and odours.
- Available in:
 - 5-Litre container
 - 25-Litre container
- Undiluted (Product should be diluted prior to use)

5 Physical Properties

- | | |
|-------------------|--|
| ○ Form | Liquid |
| ○ pH: | 1.5-9.6 wide range of operative conditions. |
| ○ Oxygen Content: | 0.5 ppm + Facultative Anaerobe /Aerobic |
| ○ Salinity: | up to 65,000ppm Effective in Saline Conditions |
| ○ Temperature | 0-65 °C Wide temperature range |
| ○ Chlorine | up to 3ppm Operative in moderate chlorine |

6 Toxicology and First Aid:

- | | |
|---------------|--|
| ○ Eyes: | Flush eyes with clean water for at least 15 minutes and seek medical advice if symptoms persist. |
| ○ Skin: | Should be no effects but rinse area with water if symptoms arise. |
| ○ Ingestion: | Rinse mouth with water. Do not induce vomiting. Seek medical advice if symptoms persist. |
| ○ Inhalation: | Should be no effects but remove person to fresh air if there is any throat irritation |
