

PROPERTIES

The ANIKO 10 spray extraction machine is suitable for the professional cleaning of textile surfaces such as carpets, upholstered furniture or car interiors. Despite its small dimensions, it is suitable for professional and intensive use. Due to the high-power suction of the ANIKO 10, floors can be walked on almost immediately after cleaning. The small working width of the carpet adapter of just 25 cm enables cleaning in tight spaces.

- Robust design
- Easy to use
- Ideal for professional cleaning work for smaller basic and maintenance cleaning

APPLICATION AREA

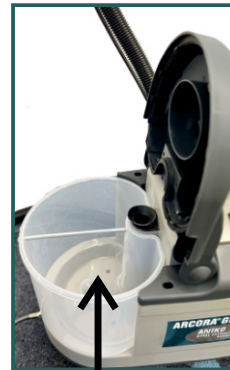

Suitable for use in cleaning companies, hotels, restaurants, pubs, bars, offices, banks, carpet stores, trains, buses, cars, airplanes, cinemas, theaters, ships, hospitals, medical facilities as well as in public facilities such as sports halls, schools, universities, etc.

STANDARD ACCESSORIES (included in delivery)

Suction lance for carpets with chrome steel tube, plastic carpet adapter (25 cm wide) with 2 spray nozzles, 2.2 m suction and spray hose, plastic upholstery adapter.
