

CLEANING PAD

ARCORA PU-PAD NEW GENERATION OF PADS

PROPERTIES

ARCORA PU-PAD - the new generation of pads for maintenance cleaning. The new ARCORA Pad is the innovativ development of conventional cleaning pads. Due to the composition of polyether and polyester the pad is very tough and unbreakable. Regarding the higher density per m³ the durability is ten times longer and much more efficient than a normal melamin cleaning pad. High area output of over 50.000 m² can be achieved with the ARCORA PU-Pad. The application range is very diverse due to the usability on all hard floors.

Additional properties:

- Higher water absorption than common pads
- Applicable on all water resitant hard floors
- Suitable for all cleaning machines up to 400 rpm
- Application at both sides possible (pad site and back of the pad (green))
- Available in every form and size
- Special size available on request
- 100% environmentally friendly by exclusive use of recycling products
- Excellent price-performance ratio

AREAS OF USE

For Deep cleaning and maintenance cleaning of all kind of hard floors from tiles, stone floor, porcelain stoneware, concrete floors up to vinyl flooring, PVC, linoleum. Particularly suitable for use in public institutions, airports, shopping malls, hotels, restaurants, offices.

APPLICATION

Use the pad site for cleaning of all hard floors. With the back side of the pad (green) its possible to remove persistent contamination. The pad can be used for floor cleaning in combination with TENAS floor. Therefore it have to be mixed with water depending on the degree of contamination. It's very suitable for use on porcelain stoneware and vinyl.

The PU-SPONGE is ideal for use in the kitchen area. For damp and wet cleaning of insensitive surfaces such as pots, pans, cast iron pans, roasting trays, metal containers and even tiles. Particularly suitable for use in HoReCa facilities such as hotels, restaurants, pubs, catering and party services, office buildings, airports, shopping centres and clinics.

- very robust
- high water absorption
- effortlessly removes stubborn dirt

Use the pad side to remove stubborn dirt and the sponge wipe side to absorb water and dirt.
