This touchless soap dispenser eliminates the need for users to touch the product in order to dispense the soap or sanitiser, helping to reduce the risk of cross contamination. When the user puts their hand under the commercial soap dispenser, the right amount of product will automatically dispense into the users hand. This controlled dispensing helps to minimise waste by ensuring users only take the amount they need, improving cost without compromising on hygiene standards. This particular Kimberly-Clark soap dispenser holds 1.2 litre cartridges and is also available in a chromed finish (code 11329). Dispenser size 29cm (L) x 18.3cm (W) x 10cm (D).
