82503 Masslinn Hopital, 61 × 25 cm, pallet
82508 Masslinn Hopital, 61 × 25 cm, carton

METHODS
finder

PROPERTIES

- Practical, thorough, hygienic and extremely economical for dust-binding mopping of all smooth floor coverings or dusting smooth surfaces
- Specially suitable for use in the hygiene sector, e.g. hospitals or hospitals or care homes
- Thanks to the special impregnation of the viscose cloths with oil, dust, dirt and germs are bound in the cloth
- Resealable packaging
- Cradle-to-cradle and FIGR certified

USE

For all smooth floors; one cloth per room

METHOD

Dust-binding mopping

GOOD TO KNOW

- stretch the cloth before use to activate
- the encapsulated oil is released and coalesces with the cloth
- the impregnation oil is encapsulated in the fibres of the cloth, which prevents it from drying out before use
- the cleaned surface displays no residual oil film
