**MOB CAPS**

Page 1 of 1

**General Description**

Prime Cleaning Suppliers offers essential Mob Caps, designed to uphold stringent hygiene standards in food preparation, healthcare, laboratory, and other sensitive commercial and industrial environments. These lightweight, disposable head coverings effectively contain hair, preventing contamination of products, surfaces, and equipment. Crafted from breathable, non-woven material, mob caps provide comfortable wear for extended periods without compromising on protection. Easy to don and discard after a single use, they are a fundamental component of any robust hygiene protocol, ensuring compliance and enhancing overall operational cleanliness.

A mob cap is a lightweight, disposable hairnet worn for hygiene, distinct from a "mop cap," which is not a recognized term in hygiene contexts.

ITEM	SPECIFICATIONS
Size	18" (45cm)
Composition	100% PPSB Single elastic
Weight	10gsm
Packaging	100/pack
Available colours	Black
	Blue
	Green
