General Description

Prime Cleaning Suppliers offers the Sani Bin 22 Litre, an essential and capacious solution for hygienic feminine sanitary waste disposal in commercial, industrial, and public washrooms. With its generous 22-litre capacity, this sani bin is ideal for medium to high-traffic environments, reducing the frequency of emptying while maintaining impeccable hygiene standards.

Designed for discreet and user-friendly operation, these bins often feature a pedal-operated, touch-free mechanism to enhance cleanliness and privacy. Their robust construction ensures durability, while a smooth, easy-to-clean surface simplifies maintenance. Integrating our 22-litre Sani Bins demonstrates a clear commitment to user comfort, prevents costly plumbing blockages, and ensures compliance with critical health and safety regulations.
