TUSK SPRAYBUFF

Page 1 of 2

Tusk Spraybuff is a professional-grade floor maintenance solution specifically formulated to restore the "wet-look" brilliance of polymer-coated floors. Designed for use with high-speed floor machines, this product effectively removes scuff marks, scratches, and dirt while simultaneously repairing the floor's finish. Tusk Spraybuff acts as a dual-action treatment that cleans and polishes in one step, extending the life of your floor wax and reducing the frequency of costly strip-and-recoat cycles. It leaves behind a slip-resistant, ultra-high-gloss finish that is ideal for high-traffic commercial hallways, retail showrooms, and healthcare facilities.

Advantages and Features

- **Restorative Gloss:** Revitalizes dull floors to a brilliant, high-gloss shine with minimal effort.
- **Surface Repair:** Fills in micro-scratches and removes black heel marks to maintain a smooth, uniform surface.
- **Extended Floor Life:** Fortifies the existing floor polish, significantly delaying the need for full floor stripping.
- **Slip Resistant:** Formulated to provide a safe, high-traction finish that meets commercial safety standards.
- **Economical Application:** Concentrated formula designed for fine-mist application, ensuring low product consumption per square meter.

Application

- **Preparation:** Ensure the floor is thoroughly dust-mopped or swept to remove loose debris.
- **Method:** Using a trigger spray bottle, apply a fine mist of **Tusk Spraybuff** over a small area (approximately 2m²).
- **Buffing:** Immediately buff the area using a high-speed floor machine equipped with an appropriate polishing pad (usually white or red) until dry and shiny.
- **Versatility:** Suitable for use on vinyl, thermoplastic, linoleum, and sealed wood floors.

1. Product Technical Information

- Active Ingredients:
 - Polymer
 - Waxes
 - Surfactants
- Available in:
 - 5-Litre container
- Undiluted (Product is to be used undiluted)

2. Physical Properties

- Form: Liquid
- Colour: Pale Yellow
- Odour: Odourless
- pH: 8 - 10

3. First Aid Measures

- Eyes: Flush eyes with clean water for 15 minutes, if irritation persists, seek medical attention.
- Skin: Use PPE: Gloves. If contact with skin, wash well with soap and water.
- Ingestion: Do not induce vomiting. Drink plenty of water and seek medical attention.
- Inhalation: No effect.

4. Additional Information

Always use according to manufacturer's instructions.

The information contained herein is based on our current knowledge and experience at this time and summarises to the best of our knowledge the health and safety and hazardous information relating to the product.

The data is intended only as a guide for the handling and safety of the product. We do not assume any liability for the consequences of the use of this product, since it is applied under conditions beyond our control and with which we may be unfamiliar. Final determination of the suitability of use of the product for any particular purpose is the sole responsibility of the user.

Although certain hazards are mentioned, we cannot guarantee that these are the only hazards that exist. We believe the product will perform the task for which it is intended, but do not in any way guarantee it will do so as conditions of actual use are beyond our control, under no circumstances shall we or our agents be liable for any consequential loss arising from its use.
