

Wetrok Reshine
The power cleaner for shiny results

Double cleaning power – and no streaks

This maintenance cleaner has real power. Wetrok Reshine dissolves the dirt on all water-resistant floor coverings and brings them to a shine without any streaking. The surfaces become wet in next to no time. This makes wet wiping a pleasure, and scrubber-dryer operations become even more efficient.

Floor cleaning method*

Spray-mop

Instructions for use

- Fill Variwet pressure vessel
- Spray-mop floor with Variwet
- Fill with Reshine:
 - Dosing centre DC 1 x 14 L or
 - 250 ml measuring cup

Product recommendation

 10 x 0,5 L dispenser: art. no. 12.261
 200 L drum: art. no. 12.265

Cosmetic treatment for high gloss floors

If you're bothered by those minute cracks, here again Wetrok Reshine proves its effectiveness, giving the surface an optical facelift. The result is pure, deep brilliance, without any irritating defects remaining.

Easy to use

Whether the water is soft or hard, Wetrok Reshine foams down in any concentration and makes it easy working with the scrubber-dryer. Even when too much of the product is used, Wetrok Reshine cleans without streaking. But a note of warning – the power cleaner doesn't just act on dirt, in concentrated form it can also remove conditioning films and protective coatings. In the recommended concentration Wetrok Reshine is pH-neutral, acts rapidly, dries rapidly and is suitable as a universal cleaning agent for all washable surfaces.
